Model QL-06 • 220–240V~ • 50–60Hz • 800–950W

CE • RoHS • WEEE Compliant • CEE 7/7 Schuko Plug

Doc. No. **QL-06-MAN-EN-01** • Rev. 2026

Read all instructions before first use

1 Product Information

PRODUCT DETAILS & TECHNICAL SPECIFICATIONS

Thank you for choosing the **0.6L Stainless Steel Electric Kettle** by Wenzhou Qianli. Engineered with premium 304 stainless steel and a T**hermostat**, it combines rapid boiling, automatic shut-off and boil-dry protection for safe everyday use.

Product Name	**0.6L Stainless Steel Electric Kettle**
Model / Type	DE0606
Capacity	**0.6 Litre**
Material	304 Stainless Steel + Plastic
Rated Voltage	**220–240 V~**
Rated Frequency	**50–60 Hz**
Rated Power	**800–950 W**
Temperature Control	Thermostat (auto shut-off)
Safety Features	Automatic power-off, boil-dry protection, overheat protection
Indicator	LED power indicator (illuminates during boiling)
Plug Type	**CEE 7/7 (EU Schuko) 2-pin earthed plug**
Certifications	**CE • RoHS • WEEE**

2 Package & Weight

PACKING DATA

0.754	0.969	18.5×17×18
NET WEIGHT (KG)	GROSS WEIGHT (KG)	CARTON (CM)

Outer Carton Dimensions	**18.5 × 17 × 18 cm**

FIG. 1 · PRODUCT DIMENSIONS

Overall Dimensions & Reference Measurements

All dimensions are measured in centimetres (cm) and shown as Width × Depth × Height. Please allow a tolerance of ±0.5 cm due to manual measurement.

3 Dimension Reference

FIG. 1 EXPLAINED

All dimensions are measured in centimetres (cm) and shown as **Width × Depth × Height**. Please allow a tolerance of ±0.5 cm due to manual measurement. Refer to Fig. 1 on the preceding page for the visual overview.

Overall Width (including handle)	**18.5 cm**
Overall Height (body only)	**17 cm**
Handle Height	**12 cm**
Base Diameter	**14.2cm**
Base Height	**1.5 cm**
Lid Opening	**9 cm**
Spout Width	**4 cm**

Space requirement: please reserve at least **20 × 20 × 22 cm** of clear space on the worktop to allow comfortable handling and heat dissipation around the kettle.

4 Package Contents

WHAT'S IN THE BOX

1 × Kettle body (304 stainless steel)	Included
1 × Kettle base with CEE 7/7 plug	Included

5 Before First Use

INITIAL PREPARATION

! BEFORE FIRST USE

Remove all packaging materials, stickers and protective films. Clean the interior by filling with water to the maximum level, boiling, then discarding the water. Repeat 2–3 times to remove any manufacturing residues.

! NEVER IMMERSE

Never immerse the kettle body, base or power cord in water or any other liquid. Wipe the exterior with a damp cloth only.

6 Intended Use

PURPOSE OF THE APPLIANCE

This appliance is intended for **household indoor use only**, to boil drinking-quality water. Any other use (heating other liquids) is considered misuse.

7 Key Features

WHY CHOOSE THIS KETTLE

304	0.6L	950W	5 Min
STAINLESS STEEL	CAPACITY	MAX POWER	FAST BOIL

304 Stainless Steel

Food-grade 304 stainless steel interior, rust-resistant and easy to clean.

Thermostat

Reliable thermostat with auto shut-off and boil-dry protectio

Auto Shut-Off

Switches off within seconds after boiling. Safe to leave unattended.

Boil-Dry Protection

Cuts power if switched on without sufficient water.

LED Indicator

LED glow shows heating; turns off when boiling completes.

0.6L CAPACITY

Compact & Portable,
Perfect for Travel, Hotels & Office

8 Cleaning & Care

MAINTENANCE

! NEVER IMMERSE

Never immerse the kettle body, base or power cord in water or any other liquid. Wipe the exterior with a damp cloth only.

Daily cleaning	Wipe body with a soft damp cloth; rinse interior with clean water
Limescale removal	Fill with water + 2 tbsp vinegar, boil, soak 20 min, rinse twice
Descaling frequency	Every 4–6 weeks, more often in hard-water areas
What to avoid	Abrasive powders, steel wool, dishwasher

9 How To Use

OPERATING INSTRUCTIONS

1 Place the base

Put the Kettle base on a flat, stable, heat-resistant surface away from the edge of the counter. Plug the CEE 7/7plug into a 220–240 V~ socket.

2 Fill with water

Lift the lid and fill with the desired amount of water. Do not exceed the maximum level. Always keep the water level above the minimum mark to avoid boil-dry.

3 Close the lid

Close the lid firmly. The kettle will not switch off automatically if the lid is left open.

4 Switch on

Press the switch on the handle downwards. The LED indicator lights up and boiling starts immediately.

5 Automatic shut-off

When the water boils, the switch pops up automatically and the LED turns off. Lift the kettle off the base to pour.

6 Re-boil

To boil again, wait a few seconds, then press the switch down once more. Never operate the kettle without water.

! TO POUR

Always pour slowly and away from people. Keep the spout opening clear of any obstruction and never put your hand over the steam vent.

10 Safety Warnings

READ CAREFULLY BEFORE USE

! WARNING — RISK OF ELECTRIC SHOCK AND BURNS

Read all instructions and safety warnings before first use and retain this manual for future reference. Children and persons with reduced physical, sensory or mental capabilities must not use this appliance without supervision.

! HOT SURFACE & SCALD HAZARD

The stainless steel body, lid and spout become extremely hot during and after operation. Always lift and pour using the insulated plastic handle only. Keep hands, face and clothing away from the steam vent. Do not open the lid while the water is boiling.

! ELECTRICAL SAFETY

Only use with a 220–240 V~, 50–60 Hz power supply. The plug must fit the socket without adaptation — do not use multiple adapters. Do not operate with wet hands or if the cord, plug or body is damaged. Keep the cord away from hot surfaces.

! PLACEMENT & USE

Place the kettle only on its power base. Never immerse the kettle, base or cord in water. Do not use outdoors or in a bathroom. Do not leave the appliance unattended while in use. Unplug when not in use and before cleaning.

! BOIL-DRY PROTECTION

If switched on without enough water, the boil-dry protection will cut the power automatically. Do not test this feature repeatedly. Allow the kettle to cool completely before refilling.

11 Compliance Information

EU REGULATORY COMPLIANCE

CE	RoHS	WEEE
Conforms to European health, safety and environmental protection standards	Restriction of Hazardous Substances Directive 2011/65/EU	Directive 2012/19/EU — do not dispose with household waste
